EXPERIENCE

UI&UX(INTERNSHIP)

VegroVentures PvtLtd

Designed user-centric mobile applications for Vegro Venture, focusing on enhancing user experience.
Created wireframes and interactive prototypes while collaborating with developers for seamless implementation.
Conducted user testing to gather feedback and make iterative improvements.

Web Development(INTERNSHIP)

VegroVentures Pvt Ltd

Provided aspiring web developers with valuable hands-on experiences in the field, guiding them through real-world projects.
Mentored and taught essential web development skills, from coding to design principles.
Facilitated workshops and collaborative sessions to enhance their learning and foster teamwork.

PROJECTS

(DataAnalyst Project) – Excel Sales PerformanceDashboard

- Analyzed raw sales data and built a Sales Performance Dashboard with KPIs: total revenue, total profit, total orders and overall profit margin.
- Performed data cleaning and preparation (handled duplicates, formatted dates, standardized regions and product details).
- Used Excel formulas, tables, conditional formatting and charts to create monthly revenue trends and product-wise profit analysis for decision-making

Data Analysis Project – Excel Sales & Revenue Analysis Project.

- Cleaned the sales dataset and fixed missing or wrong data.
- Used formulas to calculate Revenue and Net Revenue.
- Added Month and Payment Status columns using simple Excel functions.
- Created Pivot Tables to find total sales, month-wise revenue, and top customers.
- Found issues in data like missing values, wrong status, and duplicates.
- Made simple charts to show sales and revenue trends.
